

SPOTLIGHT

KAYLA SERIES From Picasso Lighting

Picasso Lighting is a manufacturer of diverse lighting solutions in a variety of light sources and forms. Their large product line covers suspended, recessed and surfaced mount fixtures which are available in both fluorescent and LED.

The Kayla series is a line of modular system luminaires great for linear applications. The fixture, which has both an LED and Fluorescent option is available for either individual or continuous runs, and can be ordered in either 4' or 8' in LED or 4', 8', and 12' in fluorescent. The fixtures are available in either direct or direct/indirect with either an opal acrylic or parabolic louver for diffusion.
